

ABHAY DESAI

REACT JS DEVELOPER

WORK EXPERIENCE

Frontend developer / React Js Developer

Aug-2022 - Present

Scaleot Technology pvt ltd

- **Project - eventopackage.com**
- Developed a dynamic event organizer website using the React.js framework.
- The website offers a user-friendly dashboard for managing events, including creating, editing, and deleting events.
- Implemented data storage and retrieval using RESTful APIs and handled data validation and error handling to ensure a seamless user experience.
- Designed multiple dynamic and browser-compatible pages using HTML, tailwind CSS, javascript(react, redux toolkit)
- **Project - festumfield.com**
- Implemented real-time messaging functionality using technologies like WebSocket or a suitable alternative, allowing instant message delivery.
- Focused on optimizing the user experience with features such as message notifications and a clean, user-friendly interface.

React Js-Internship

January 2022 - July 2022

Webytude web solution

- Throughout this internship, I honed my skills in React.js, JavaScript, HTML, and CSS. I actively contributed to the development process and gained valuable experience in front-end web development best practices. My dedication to improving user interfaces and collaborating effectively with the team allowed me to make meaningful contributions to the projects.

Team Leader

Aug 2018 - Dec 2021

Jeeves Consumer Services pvt ltd

- Ticket Allocation and manage technician Using CRM and SRMS software to receive and manage customer service requests or tickets. These tickets could relate to various consumer service issues, such as appliance repairs, technical support, or other service requests.

EDUCATION

Bachelor of Engineering (6.7 CGPA)

Pacific School of Engineering (GTU)
2014-2018

Higher secondary education (70%)

Shantiniketan Vidhyavihar
2012-2014

PROFESSIONAL SKILL

- Problem-Solving
- Communication
- Teamwork
- Time Management
- Documentation
- debugging

TECHNICAL SKILL

- HTML/CSS
- Tailwind, Bootstrap
- JavaScript
- React.js
- Node.js and npm/Yarn
- Routing
- Debugging
- Performance Optimization
- Formik
- Redux-Toolkit
- Node js
- MongoDB
- API Integration

GITHUB DESKTOP PROFICIENCY

- Utilized GitHub Desktop to manage code repositories for multiple projects, ensuring a streamlined and organized development process.
- Collaborated with a cross-functional team, resolving merge conflicts and facilitating smooth code integration.
- Tracked and documented code changes, enhancing transparency and accountability within the development team.

HOBBIES

- Coding and Side Projects
- Music
- Cooking and Foodie Adventures
- DIY and Home Improvement
- Fitness and Exercise
- Art and Design
- Photography

AWARDS

2015	1st/43	Chess competition 1st place: strategic prowess, dedication, and sportsmanship.
2016	3rd/24	College robo race competition winner, innovation and engineering skills.Chess
2017	2nd/50	competition 2nd place: strategic prowess, dedication, and sportsmanship.
2017	2nd	2nd Runner Up in folk orchestra Xitij gtu 2017
2018	1st/50	Chess competition 1st place: strategic prowess, dedication, and sportsmanship.
