## WORK EXPERIENCE:

### CapSync Solutions LLC – Software Developer (02/2024 – Present) Project – Real-Time Personal Financial Statement Application:

- 1<sup>st</sup> Project Description:** Developed a dynamic digital finance platform that centralizes users' financial data to deliver a real-time Personal Financial Statement. The application enables seamless tracking of assets, liabilities, and expenses, empowering users to make data-driven financial decisions and strategically optimize their wealth.
- 2<sup>nd</sup> Project Description:** Engineered a white-label React web application enabling multiple businesses to rebrand and deploy the Capsync platform under their own domains. Designed for scalability and customization, the solution allows organizations to retain full control over branding while leveraging the robust core functionalities of the Capsync ecosystem.
- Supervised development of 15+ features, 20+ improvements, and 30+ bug fixes, boosting product quality by 40%.
  - Designed and maintained high-performance React apps; used Redux Toolkit to cut API calls by 30%.
  - Collaborated with 5+ designers to build intuitive UIs, increasing user engagement by 25% and client satisfaction to 95%.
  - Set up CI/CD pipelines (Jenkins, UrbanCode, AWS), reducing deployment time by 60%.
  - Applied TDD with Jest and React Testing Library to achieve 90% code coverage and 40% fewer bugs in production.
  - Led 50+ peer code reviews, enforcing best practices and improving code quality.

### SCALELOT TECHNOLOGIES (01/2022 – 02/2024)

- Event Dashboard Application (EVENT ORGANISATION PROJECT):
- RealTime Chat Application (FESTUM FIELD PRODUCT)

Developed an event management dashboard enabling organizers to create accounts, publish events, and manage attendees efficiently. Integrated mobile-friendly event discovery and booking to boost user engagement. Also built a location-based social networking app using Google Maps API, featuring real-time chat, friend requests, group creation, and location-aware connections. Added support for business accounts to promote and sell products locally, encouraging community-driven commerce.

- Led a team of 6 developers, mentoring juniors, resolving technical issues, and ensuring timely delivery of features and fixes.
- Managed 3+ major upgrades and contributed to product improvements by fixing 50+ bugs and enhancing usability.
- Collaborated with clients to resolve 100+ technical issues, including performance tuning and cross-browser compatibility.
- Provided prompt support, boosting client satisfaction and strengthening trust across multiple high-impact projects.

## EDUCATION:

- B.E | 08/2018 - GTU – 6.7 CGPA
- HSC | 06/2014 - GSEB – 67.46%
- SSC | 06/2012 - GSEB – 84.60%

## AWARDS & ACHIEVEMENTS:

- On The Spot Award (Scalelot – 03/2023).
- Xcelerate Warrior (Capsync – 08/2024).
